Bryan, that he finds his salary of \$12,000 a year in-adequate for life at Washington, and that he is compelled to supplement his income by lecturing for money when-ever the House is not in session, it is

only fair to him to point out that his stipend from the national treasury compares unfavorably with that of the Speaker of the House of Commons in England, and of the president of the Cnamber of Deputies in Paris.

The Speaker of the House of Commons enjoys a salary of \$25,000 a year as well as the use of a magnificent of-ficial residence, completely furnished

On his retirement, no matter how brief his term of office, he receives a pen-sion of \$20,000 a year for the remainder of his life, as well as a peerage.
In Paris, the president of the Chamber of Deputies gets no pension on his retirement. But he has salary and allowances amounting to \$25,000 a year, and the use of the beautifully furnished palace known as the Petit Bourbon, adjoining the Chamber of Deputies, it stands in fine grounds on the banks of the Seine.

Him. Eat at the time when he turned it over to the committee of liquidation, formed by the leading bankers of London, it seemed doubtful whether he would ever see a penny of it again.

That he is a man of some pluck is shown by the fact that at the time of the Phoenix Park murders, when his half-brother, the late Earl Spencer, was Viceroy of Ireland, and in constant danger of assassination, he made a point of accompanying him in an unofficial capacity everywhere in and around Dublin, no matter whether walking or riding, for the purpose of protecting him. He is noted for the perfection of his manners and of his attire, his collars in particular being as famous in their way as those of the late Mr. Gladstone. It was this that caused his commencement of a speech in the House of Commons with the words, "I am not an agricultural laborer," to excite so much hilarity. Althorp, his country seat in North-amptonshire, which has been in the possession of the Spencers since long before the reign of Henry VIII., possesses a particular interest to Americans. For Lady Spencer, wife of that Sir John Spencer who so often entertained the poet, Edmund Spenser, author of the "Faerie Queene," at Althorp, was a sister of Margaret, wife of John Washington, from whom the first President of the United States was descended. Lawrence Washington was not only the kinsman but the Spencer's grandson, Robert, first Lord Spencer, of Althorp, and helped him to entertain Queen Anne, consort of cuit Court.

The presentation was ed a treight at Baird, seven miles above here, this morning. Several telegraph poles were knocked down, cutting the Western Union lines, but no one was hurt. of the Fairies," which was performed in the park on June 25. Lawrence Washington, who died in 1616, lies buried in St. Mary's Church, just above the wooded slopes of Althorp; and bordering on the church-yard are oak trees which were already growing at the time of the acquisition of Althorp by the Spencers during the Wars of the Roses. Commonwealth's Attorney Newbill and Judge T. R. B. Wright accepted the portrait for the citizens of Lancaster County. The speakers were introduced by Thomas J. Downing and Frank P. Brent. age. Robert Spencer, it is said, in the latter part of his life, went to Taloot County, Md., to reside, where he iled, leaving descendants. As for Nicholas Spencer, his brother, he came by grants and purchase into the pos-session of large tracts of land on the Eastern Shore of Maryland, which he owned as late as 1667. He was finally induced, by his ties of relationship and friendship to the Washingtons, to migrate to Westmoreland County, Va., where they had established themselves. He was better known as Colonel Nicholas Spencer, was secretary of Virginia and acting Governor in 1683.

I may add that the Mount Vernon

estate, now the Mecca of every patri-otic American citizen, was originally part of 5,000 acres of land that were assigned, on division, to John Wash-ington, the great-grandfather of George Washington, in conjunction with Nicholas Spencer, under a patent from Lord Culpeper, Governor of Vir-

ginia, in 1670.

The late Earl Spencer in 1860 presented to the Hon. Charles Sumper, of Massachusetts, precise copies in stone of the memorial stone of Lawrence Washington, of his brother, Robert Washington, and of Elizabeth Washington, his wife, in the Church of St. Mary, above Althorp, and they are now in the State House at Boston. On a white marble tablet, near the Washington memorials, and not far from where the statue of George Washing-ton stands, there is the following de-

scription:
"These facsimiles of the memorial stone of the Washington family, in the Parish Church of Brington, burial place of the Spencers at Althorp.
